Musings Of An Energy Nerd Toward An Energy Efficient Home

One of our current projects includes a new fully ducted HVAC system. There is one air handler with two zones ducted off of it. The HVAC sub installed the zone dampers so close to the air handler that its not possible to dump the supply side of the ERV into the duct work before the zone dampers so I ' m considering splitting the ERV supply in to two and dumping the air into each branch of the ...
